### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: none of the prior art of record fairly disclose or render obvious the claims of the instant application, in particular the steps of converting the carbon chars bound to graphite in a molten electrochemical step, wherein the carbon chars are converted to carbon dioxide and electrical energy in the presence of oxygen and the graphite fibers are left intact.

Prior art processes decompose both the carbon char and the graphite in an electrochemical process. Another process removes carbon from graphite in a molten bath, however, the process occurs in the absence of oxygen (see Sprague abstract). Further the process does not produce electrical energy as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arun S. Phasge whose telephone number is

(571) 272-1345. The examiner can normally be reached on MONDAY-THURSDAY, 7:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam X. Nguyen can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
